

- Swing leaf restrictor option
- Pull handle provides easy grip for operating outward opening doors
- Dual or single colour available
- Easy glide stainless steel wheels carrying the weight from the bottom to ensure smooth operation
- Part L compliant—thermal break means the door can achieve a U-value of 1.9 W/m²k
- Eurogroove multi-point lock and anti-lift blocks as standard
- All wheels and rollers are hidden within the outerframe and are therefore not visible when the door is locked
